WL-GI-700S

54Mbps Wireless USB Client Adapter

Introduction

The future of affordable and secure Wireless connectivity is finally here with the new Wireless USB connectivity series from Dynamode.

The new **WL-GI-700S** is a stylish, small footprint USB2.0 Wireless connectivity stick using the latest ASIC single chipset solution for reduced power drain and better Wireless connectivity, even at extended distances.

Using trusted *SignalSafe™* wireless encryption keeps your data private also. Fully compatible WPA encryption is the perfect choice for E-commerce applications but the product is also backward compatible with Access Points for example that only supports legacy WEP encryption techniques.

Rounding off this feature rich product is our unique Windows® based client software that allows full control over the WL-GI-700S and comes complete with Site Survey utilities for control over your local WLAN airspace.

54Mbps WiFi PCI Client
WL-GI-600XA

54Mbps PCMCIA Client
WL-GI-300B

54Mbps Router AP
BR6004W-G1
