

# USB-LA-C

*Flexible USB Powered LED light*

## Light the way to productivity.

Introducing the new, very low cost but totally useful LED lighting system for Notebooks and Netbooks.

The new Dynamode **USB-LA-C** is a compact, high power single LED lighting device that allows business travellers and professionals to work effectively on the keyboard in low or no light conditions such as those found on an Aircraft and Cars.

Featuring a long, 45cm (approx.) flexible and self-supporting cable coil, the USB-LA-C uses a high-power, but of course power efficient ultra-bright LED for excellent illumination, even under zero light conditions. Full USB bus powered (USB1.1, USB2.0) the device benefits from low power drain so you'll stay productive – for longer.

Available from authorized Dynamode distributors.
