

WL-700G-M

Compact 802.11g Wireless USB Adapter

Compact and very affordable.

Introducing a highly compact and affordable 802.11g wireless solution with piece of mind of the very latest wireless security.

The new Dynamode **WL-700G-M** is an ultra-compact and stylish USB2.0 adapter which brings a cost effective and stylish addition to users wishing to replace there existing 802.11g Wireless USB adapter with a view to getting increased wireless performance, increased wireless stability and improved Operating System compliance.

Enjoy improved wireless encryption with WPA2-PSK and of course legacy encryption methods to allow total compliance with your existing Wireless Router or Access Point, the **WL-700G-M** also includes features not normally at this low price point including 'Soft AP' to allow your PC to emulate a separate Access Point and multi-function roaming to help maintain a useable wireless signal while roaming in your home or office.

Also available in high-speed 802.11n versions.
